

Developing and validating a conceptual survey to assess introductory physics students' understanding of magnetism

<b>Referee Affiliation</b>	Boston University, Physics Department
<b>Manuscript ID:</b>	EJP-102348.R1
<b>Manuscript Type</b>	Paper
<b>Article Keywords</b>	magnetism, physics education research, validated survey, multiple-choice test, conceptual difficulties, introductory physics, gender differences in student performance
<b>Date Submitted:</b>	14-Nov-2016
<b>Date Assigned:</b>	15-Nov-2016
<b>Date Review Returned:</b>	20-Nov-2016
<b>M-Score for this man...</b>	24.00
<b>Author(s)</b>

req Do you want to get credit for reviewing this manuscript on [Publons](#)?

By selecting "Yes" you are opting in to the Publons service and data about this review will be transferred to Publons. By default, the content of the review will not be publicly displayed, and only the year of the review and the journal title will be shown on reviewer profiles. You may edit what is displayed for any review or opt out of the service at any time.

### QUALITY ASSESSMENT

Please score on a 1-10 basis (1 = low, 10 = high) how you rate this article on the following aspects:

req Originality 8

req Scientific Rigour 8

req Significance 8

### QUESTIONS

Thank you for reviewing this article for European Journal of Physics.

This article should be treated as CONFIDENTIAL and the information contained therein should not be cited until the article is published. The report should not be communicated directly to the author.
